HANDS - ON PROJECTS , YOUR CHILD WILL BUILD

A hands on workshop for class 7 - 9 students to Explore, Create and Innovate with electronics, coding, and robotics.

LED Circuit -
using Battery &
Breadboard

SMART BULB -
Microcontroller
based bulb control

**Water Overflow
Alarm System**

**Fire Alarm
System**

**Motion Detection
System**

**Boom Barrier
System**

**Temperature &
Humidity Monitor
System**

**Line Following
Robot**

**Simple Mobile-
Based CAD Designs**

**See how designs
can be turned into
3D Printed Objects**

CONCEPTS (NCERT Based)

- ✓ Understand real wiring & circuit connections
- ✓ Learn energy conversion in working devices
- ✓ Explore IR, motion & sensor technologies
- ✓ Develop automation & control system thinking
- ✓ NCERT-aligned practical science learning

CONCEPTS (NCERT Based)

- ✓ Build strong science fundamentals through real experimentation
- ✓ Learn coding naturally through exciting hands-on projects
- ✓ Spark creativity and build teamwork skills
- ✓ 100% hands-on DIY learning – no boring lectures
- ✓ Develop problem-solving mindset

CONCEPTS (NCERT Based)

- ✓ Build and understand real working systems
- ✓ Gain confidence in handling technology
- ✓ Think like a young innovator
- ✓ Active application of knowledge
- ✓ Inspirational growth

DURATION

3 Sessions
(4 Hr. each)

BATCH SIZE

Small Batches for
more attention

FOR

Classes 7 - 9
Students

FEE

OUR PLAN

STEM EXPLORER PROGRAM

PROGRAM OVERVIEW

A progressive, project-based STEM program that equips students with practical skills in electronics, coding, IoT, CAD, and robotics. Through hands-on projects and guided learning, students develop creativity, critical thinking, problem-solving, and engineering skills while building real-world automated and robotic systems

Add On: Line Following & Object Avoidance Robot, Bluetooth Controlled Robot, Pick and Place Robot, Smart Home Control Through Mobile No Parking Detection System, Arduino Coding Classes, CAD Modelling & 3D Design

STEM EXPLORER PROGRAM

Mentored by IIT Alumni

IndiTronix AI Labs is incubated at the Incubation Centre, IIT Patna – Curriculum designed and mentored by IIT Faculty and IIT Alumni. Sessions run in genuinely small batches, so mentors work with each student directly rather than lecturing to a room.

Live Demonstrations

1 on 1 Expert Guidance

Performance Evaluations

IITian Mentors:

Kundan Saha
CEO, IndiTronix AI Labs
Project Staff, ISRO Project
M.Tech in Mechatronics, IIT Patna

Pranav Kodidasu
Research Associate, IndiTronix AI Labs
Former Assistant Manager – ADAS, MSIL
M.Tech in Mechatronics, IIT Patna
Institute Silver Medalist

STEM EXPLORER PROGRAM

Transparent Workshop Investment

Ignite Curiosity Fee

Rs.3,000

All-inclusive — no hidden costs,
no per-session billing.

Ignite Creator Fee

Rs.4,000

All-inclusive — no hidden costs,
no per-session billing.

Ignite Innovator Fee

Rs.5,000

All-inclusive — no hidden costs,
no per-session billing.

10–14 hours of direct
mentorship (5–7 sessions, 2 hrs
each)

Full access to hardware &
sensor kits during workshop
hours

Small-batch attention
throughout the program

Flexible timing based on batch
availability

Capstone showcase
participation

Verified certificate of
participation

Sessions run 2 hours each, 5–7 sessions per program, with timing arranged around school schedules. Batch size stays small so mentors can give every student direct, hands-on time.

**Special Offers: 30 % off on the combined Ignite Curiosity + Ignite Creator program.
33 % off on the combined All Programs package.**

Next Batch

New cohorts begin monthly — seats are limited per batch.

About Us

IndiTronix AI Labs was founded in 2025 with a mission to bridge the gap between advanced technology and real-world healthcare challenges. Incubated at the Incubation Centre, IIT Patna. We innovating smart devices and AI-powered systems for healthcare, industry, and beyond.

Our innovations are supported by MeitY TIDE 2.0 (Phase-2), the Department of Science & Technology (DST), Government of India through NIDHI-PRAYAS, and State Government of Bihar through the Startup Bihar Seed Grant program.

WHY THIS WORKSHOP ?

Here are the reasons why you should join this workshop.

Build strong science fundamentals through real experimentation

Learn coding naturally through exciting hands-on projects

Real-world innovation exposure from India's future lab

WHAT STUDENTS WILL GAIN ?

Confidence

Technical Skills

Electronics Know-how

Creativity

Future-Ready Mindset
