Company Overview

VirentoHire is an AI-powered recruitment platform that helps organizations conduct automated interviews, evaluate candidates, and streamline hiring workflows.

Mission

To make hiring faster, fairer, and more data-driven through AI-powered assessment tools.

Culture

We value innovation, ownership, collaboration, continuous learning, and customer focus.

Technology Stack

React, Next.js, Node.js, Python, FastAPI, PostgreSQL, LiveKit, OpenAI, Deepgram, and Cartesia.

Interview Process

Candidates are evaluated through resume screening, AI interviews, technical assessments, and final human review.
